

MGT 7316 C: Web App Solution Architecture and Design

# Agenda

June 17, 2023

## Introduction

## Solution Architecture

Key Terms

Patterns

## Solution Architecture and Design Document

Overview

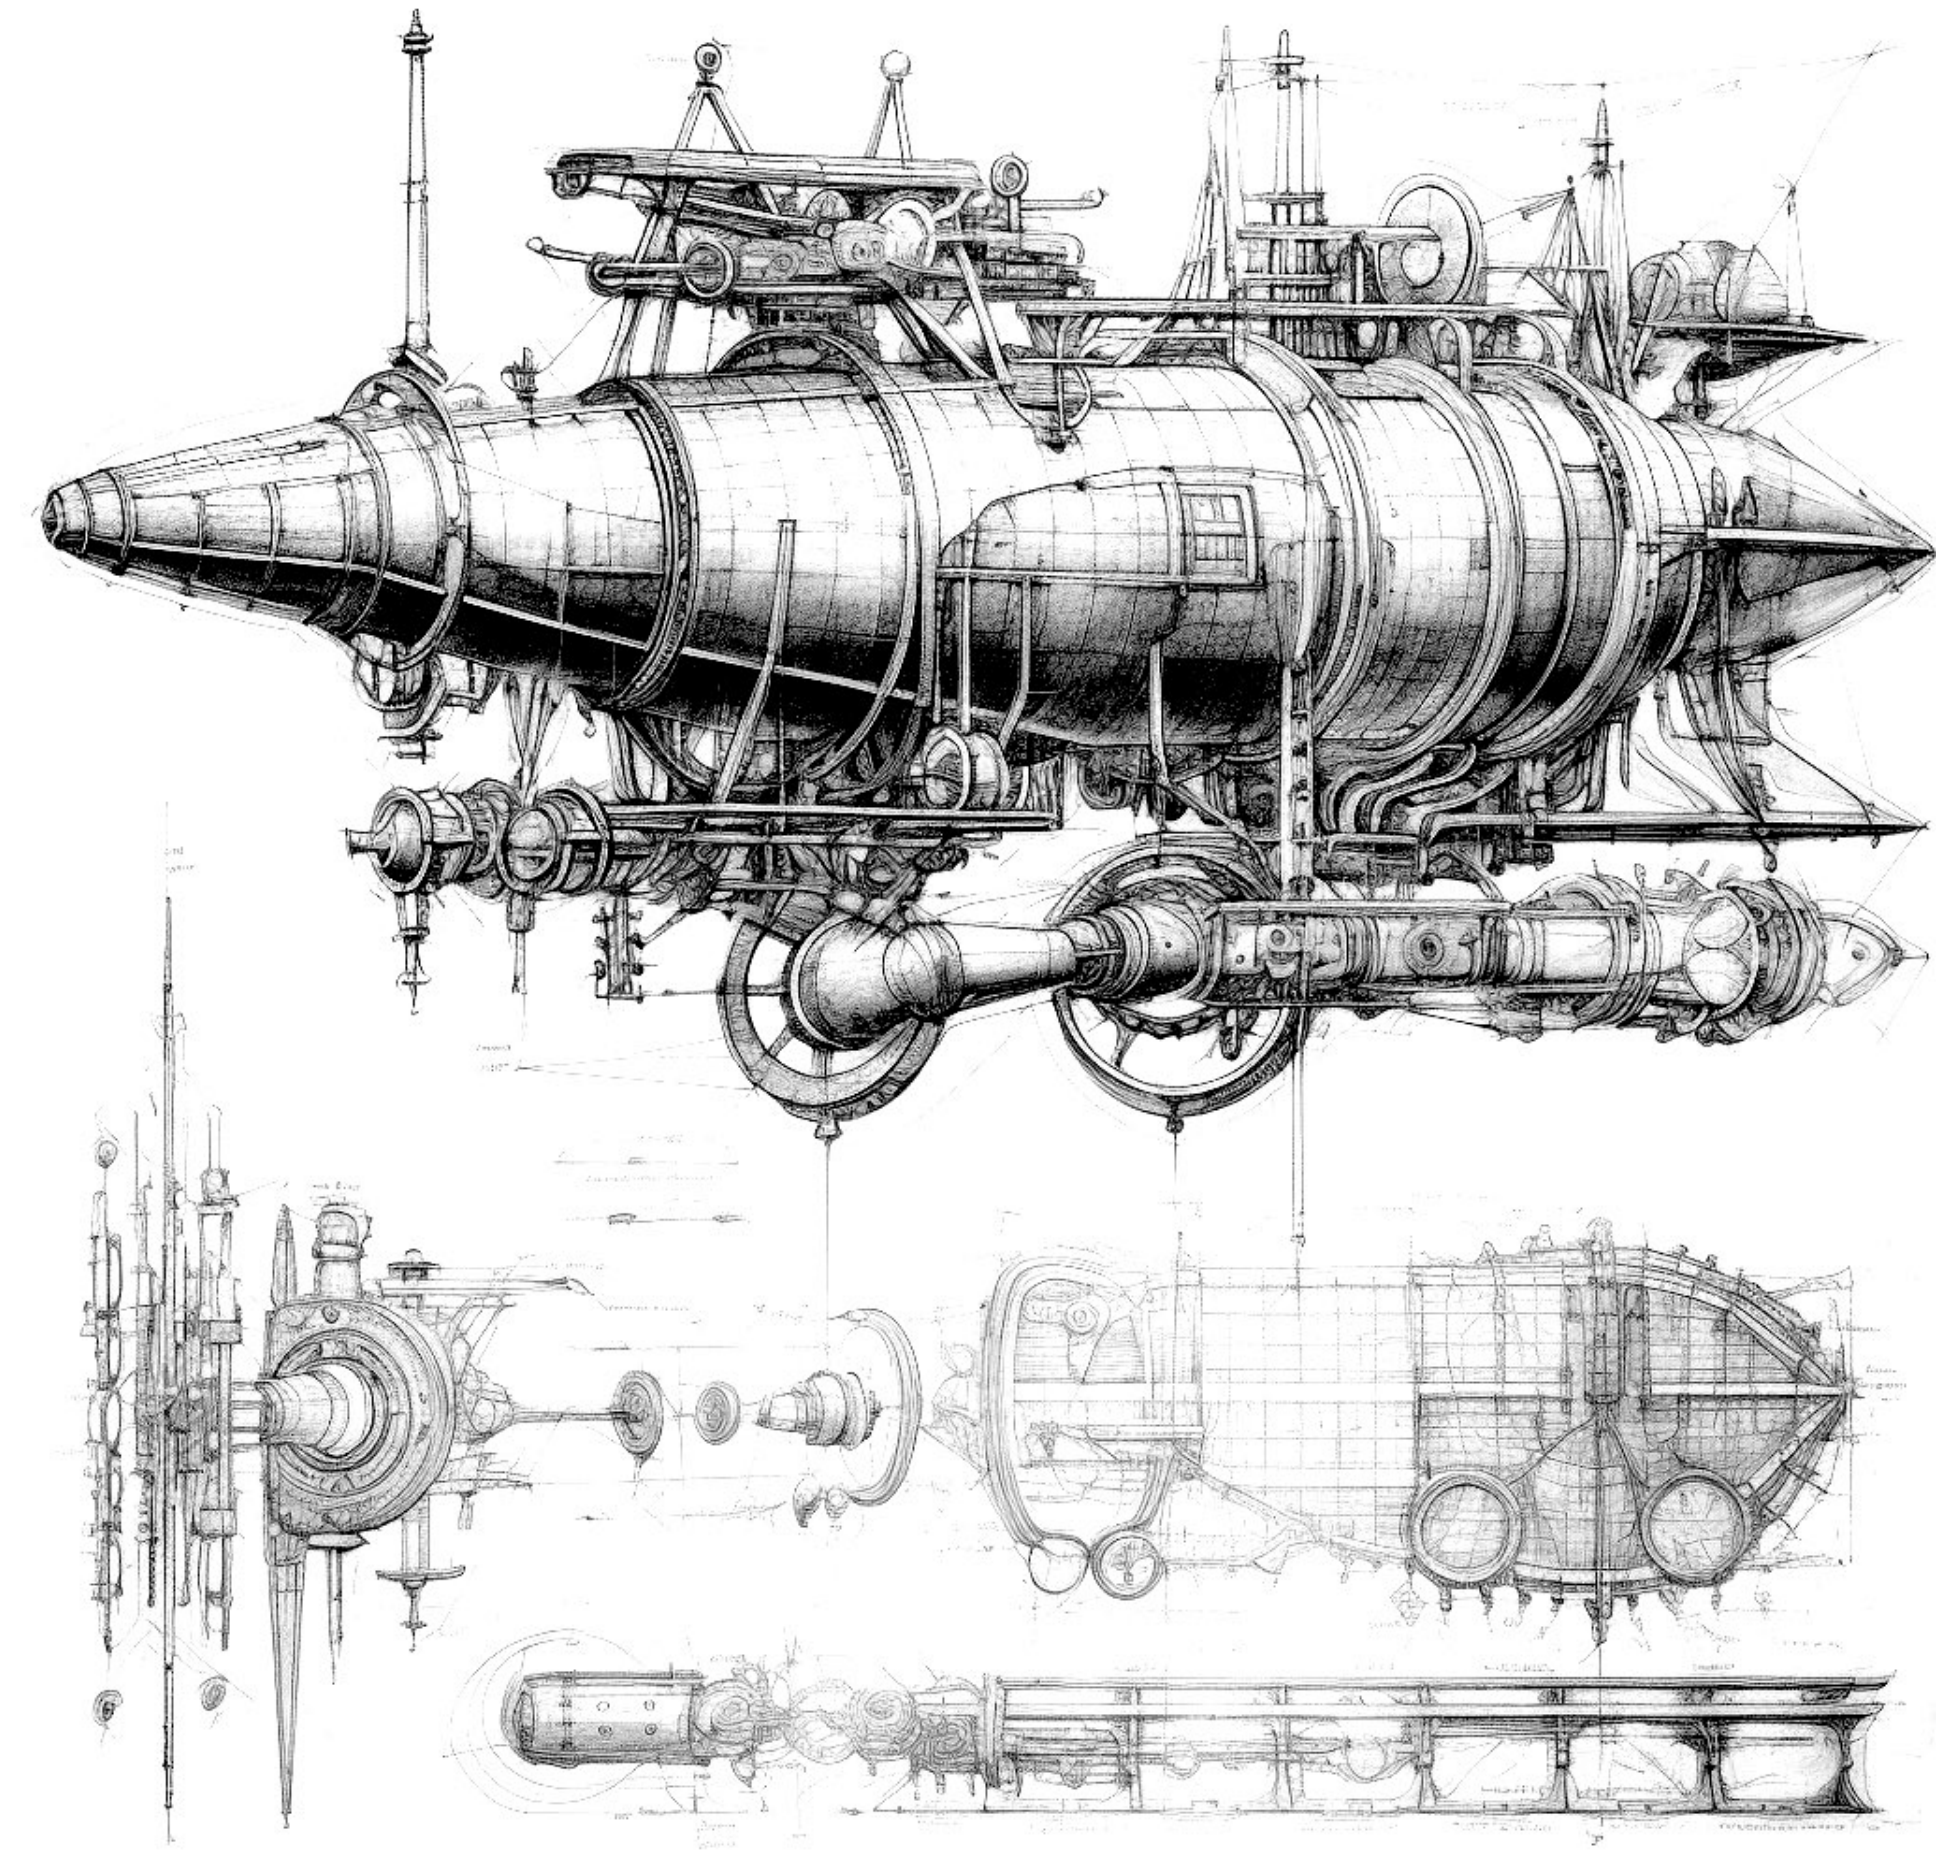

Components

## Markdown

Syntax

Replit IDE

## Module 2 Tasks

# Key Terms

## Problem Solving Methodology

1. Create a **problem statement**
2. Use computational thinking as the process which **produces an algorithm/pseudocode** (plain language description of steps) which generates the desired condition or result
3. Convert algorithms/pseudocode (**aka encode**)
